Home In Heaven

We're safely home in Heaven, Though we know you miss us so. The love We've always felt for you, Within our heart still flows

Our Spirit will remain with you Every single day, appearing as a Rainbow or as ocean waves at play.

We're in the gentle rains that fall, And in the morning dew. All you see that's beautiful Reflects Our love for you.

We didn't mean to cause you pain, Our time had simply come. The work that we were meant to do On earth had all been done.

We're safely home in Heaven, Where eternal peace is mine. And where, when God has called you, Too, I'll be forever Thine.

IMPACT WORLD TOUR IS RAMPING UP

The Impact World Tour events which are scheduled for Van Wert and Paulding County the 3rd week of April and specifically at the Wayne Trace "Palace" on April 21 and 22, although still in the planning stages are progressing on time and ramping up with a lot of enthusiasm. The administrative planning team has been meeting weekly to review and continue with the event planning and update what has happened and what still needs to be done to provide a stimulating event for the youth of Northwest Ohio.

Usher training was held on Monday, March 20, 2006 at the Wayne Trace Jr/Hi School with some 35 potential ushers being trained specifically for the events of the two nights at Wayne Trace. Ushering will be an important function during the evenings programs, not only to help people in and out of the building and to the event but with emergency situations, collecting the offering and assuring the safety of the group. More ushers are needed so if you feel the urge to be an usher at the largest youth gathering in Paulding County call Pastor Paul Hamrick at (260)

Following the usher training about 45 people attended a prayer session in the "Palace" and prayed for God's presence with the youth, leaders and teams that would be part of the event. The group prayed that the "Palace" and the surrounding area would become "Holy Ground" where God would be in charge of everything that happens. There will be community prayer services on Saturday 6:00-7:30 p.m. at the following locations:

-Pioneer Christian Ministries Church located at the intersection of SR 637 and CR

—Bethel United Methodist located at Forders Bridge, Cecil, Ohio. -Paulding United Meth-

odist, 321 N. Williams St in -Edgerton Wesleyan

Church located at 1717Bertha St. in Woodburn, Indiana. Please join in any of these

services as we lift up this Impact World Tour event in prayer.

The next meeting of the executive committee will be Sunday, March 26, 2006 at the Haviland Country Chapel UMC at 2:00 p.m. The church is located on the eastern edge of Haviland, Ohio on SR 114 about 1/2 mile west of the intersection of US 127 and SR 114. This meetings agenda will be the ongoing business and planning of the upcoming ÎWT event. It is being scheduled on a Sunday afternoon to allow some people to attend who work during the week and have not been able to attend the weekday meetings. Everyone is welcome!

LIVING LIKE CHRIST

By: Pastor Jeff Shadowen, Westwood Fellowship, Woodburn

I missed writing this column this past week, and I apologize. I had "one of those weeks" with too many surprises. The surprises have continued this week as well, but it looks like this column will get done today. I think! We had been looking at the topic of worship, but I

have decided to move on to something different this week. We will, however, continue to explore the Christian life. The most important decision that you will ever make in life is the one to choose to embrace Jesus Christ as your Savior and Lord. The second most important decision is what to do with the Christian life - your personal relationship with Christ - after you make that first choice. This past week, in my

devotional reading, I came across a "new definition" (new for me) of what the Christian life is all about. It was written by Eugene Peterson - the same man who has "translated' the entire Bible on his own into the paraphrase that is called "The Message". This quote is taken from one of his devotional books, "Living the Message".

"What connects these great realities of God and the great realities of salvation to the geography of this parish (church) and the chronology of this week? The answer among the masters who I consult doesn't change: a trained attentiveness to God in prayer, in Scripture reading, in spiritual direction (spiritual disciplines). This has not been tried and discarded because it didn't work, but tried and found difficult and so shelved in favor of something or other that could fit into a busy pastor's (or lay person's) schedule."

That is quite a statement! First of all, this "formula" for the Christian life is not "undo-able" or ineffective, but difficult. Secondly, it is not complicated - only three areas of focus wrapped around one foundational essential "a trained attentiveness to God."

The three areas of focus are not surprising or unexpected prayer, Scripture reading, and spiritual direction (i.e. spiritual disciplines). I have written in the past on those first two. I have never covered an overview of spiritual disciplines. That will be our task

over the next several months. As we work together on this, evaluate the quality of your personal relationship with God. And if you have no relationship with God, there is no better time than today to begin your life with Christ!

INVESTMENT INSIGHTS

I just inherited an annuity from a deceased relative. What is an annuity? (Part 2)

In a previous column I addressed one of the 2 major considerations of an annuity. The first step is to determine if the original principal was invested with after-tax money (making it "non-qualified") or was the money pre-tax (making it "qualified."). The next step is to determine what type of investment choices vou have.

Annuities were originally created to allow individuals to generate a stream of income for life. The idea is simple: you invest money with an insurance company and - when you are ready to retire - they pay you a "pension" for life. The annuities on the market today have much more complexity but basically fall into one of 3 flavors.

Fixed Annuities. Let's call these Plain Vanilla because they are the most easily understood. You invest money with an insurance company and they agree to pay you some specific interest rate as long as the money remains there. Most fixed annuities have a minimum interest rate (generally around 3%) that they will never go below. However, the rate may go up slightly as interest rates rise.

Fixed Annuities are backed by the financial strength of the insurance company that issues them. If the insurer goes out of business there is no guarantee you will ever recover your money. The interest on a fixed annuity builds tax deferred until it is withdrawn.

Equity Index Annuities. They are the "Tooty-Fruity" of the annuity world. These investments are extremely complicated and have a myriad of different rules, contract values, and restrictions. Values are usually tied to the rate of return of a stock market index, generally the S&P 500. This type of annuity often provides some sort of downside protection coupled with limited account growth based on a percentage of the gain of the index it tracks.

Other Annuities. Another type is the "Chocolate Peanut Butter" of annuities. Unlike a fixed annuity, there is usually no guaranteed rate of interest. The returns are driven exclusively by the results of underlying investments. The value of this type of annuity may go up, but it may also go down. There is a chance for total loss of principal in some annuity contracts

With all the different "annuity flavors" on the market it may be wise to discuss your situation with an Investment Advisor. There are many things you should understand before you decide what to do with your inheritance.

By: Sue Knapp

The March 20 meeting opened with the Pledge of Allegiance.

*Doug Miller, representing the Pop & Brew, was present to make sure he had approval to put a new gas sign on the corner of 24 & 49. The zoning permit was approved. A start date for the sign will be around the first of June.

*A new eight inch water line needs to be installed in a sleeve under the railroad tracks on County Road 43. The Council may have problems with the railroad concerning this matter. The railroad has not responded to the Council's inquiries and there seems to be a missing page from the existing service agreement. Melanie Farr, the Village Solicitor, will continue to look for the missing

*Applications for a new Village Administrator will be accepted through March 29.

*Second readings were read of ordinances to rezone five properties on Wentworth Road from agriculture to residential.

*A resolution was amended to transfer the purchasing for construction and repairs from the Village Administrator to the Mayor.

A public hearing will be held on April 3 at 6:00 p.m. at the United Methodist Church concerning the building of new silos.

ANTWERP HISTORY

By: Stan Jordan

A fireman is more than a fireman, he is an ambassador for his town. I have many friends in the nearby towns that I met as a volunteer at the county meetings and at some mutual aid runs.

I have scores of good memories from some fire runs, and some bad ones too. In the years that I belonged to A.F.D. We had three fatalities. That can get to you in lots of ways. It is mighty emotional to all concerned.

Over the years we have had a lot of fine parades on Fireman's Day. A lot of the neighboring towns would send their fire trucks and maybe their high school bands and Antwerp would return the favor.

A few years back in the last parade we had, Chuck Wiedeman and the Antwerp Antique Classic Car Association had a Cruise-In and 10 cars were here. They parked on both sides of the street for us to observe and I wore out a pair of glasses just from looking. Chuck would always put his 1957 Thunderbird in our parade, but he doesn't have it anymore. Instead he obtained a 1936 Dodge ½ ton pick-up truck. He restored and customized it, and has won a number of "First Place" awards at their meets. A couple years back Chuck and his Dodge truck were featured in a National Automotive Magazine. Not bad, Chuck,

I had a talk with him the other day and he said, on July 8th his auto club would have another Cruise-In on the streets of Antwerp with upwards of 150 participants. He also said on that day there would be a Harley Davidson Motorcycle meet on the parking lot of the Essen House. I'm sure there will be more on these events later. But this sounds to me like we're going to have a whole day of look-

I'm going to take this opportunity to thank everybody who over those years helped in anyway with the parade. Most especially all those who entered floats or cars or tractors, a group, a marching band or anyone else who helped put those parades over the top. A tip of my ball cap to

I would like to add here that if you remember on all the parades the last float was a cart pulled by miniature ponies carrying Mr. & Mrs. Carl Mason. Mrs. Marjorie Leinard (Antwerp's oldest citizen) sponsored that float and the gum, suckers and candy that the Masons tossed to the kids. I would like to thank Mrs. Leinard for all those times and the Mason's also. I talked to Carl pretty often and he said he and his wife enjoyed those days and I wish we could do it again. A lot of other folks have told me the same thing.

In the past years we have always had a good group of firemen. The officers and men of this Antwerp Volunteer Fire Department are as good as they were. The last parade we had

I will remember always. It was another pretty warm August Day. The speaker stand was situated in front of the L. Smith & Son building. Like we did for many of the parades, my son Gale and I did the microphone work. Gale did most of the talking and I kept the papers in line for him. During a slow time I looked across the street to the west and I saw my old school chum, Helen Greene standing in the shade talking to some people. Well, I was excited right away because I hadn't seen her for quite a spell. When the parade was over,

Gale rolled up all the cables and covered the mikes and speaker and said he would return all the equipment to the fire station. My wife came up and said, "let's go get a bite", because it was after 1:00 p.m. I told her my old school chum, Helen Greene was over there and I wanted to see her. Pauline said the Mason's are serving barbecue chicken for about 600 people and the later we are the longer we have to stand in line in the sun. I told her to go on down and get in line and I would come and catch up with her. So I walked across the street to where Helen Greene was standing and talking and she had her back towards me, so I walked up and tapped her on the shoulder. She turned around and gulp, gulp, stammer, I didn't know this lady at all. I finally got out the words and said, "you look like Helen Greene!" and she said, "I know it, and I don't look any

NO ENTITY OF THE STATE PROVIDES FOR NON-THER-APEUTIC ABORTIONS

According to the Alan Guttmacher Institute, a nonprofit corporation for reproductive health research, approximately 1.37 million abortions occur annually in the United States. Alarmingly, a report by National Right to Life shows that since 1973, when the U.S. Supreme Court Roe v. Wade decision legalized abortion, more than 47 million abortions have been performed. Fortunately, in recent years, the number of annual abortions has been on the decline; however, in an effort to protect the right to life of all innocent human beings, the Ohio General Assembly remains committed to limiting these abortion procedures through legislative action. In January 1998, the leg-

islature passed House Bill

These bills have been an effective tool to ensure that Ohio's taxpayer dollars fund programs that promote the care of human life and not its destruction. That's why I was shocked to learn recently that Bowling Green State University (BGSU), a state funded, public university, is offering a student health insurance policy that provides coverage for non-therapeutic abortions. The BGSU administration decided that all students should be covered by health insurance and if a student does not have private health insurance, BGSU will require the student to purchase a plan offered through the university. Originally, BGSU intended to only offer one plan, which included coverage for non-therapeutic abortions, meaning state dollars would be indirectly used to cover non-therapeutic abortion procedures. However, after the public outcry that ensued, BGSU decided to add another insurance plan that did not include abortion coverage. While HB 395 and HB 94 were important pro-life legislative achievements, Bowling Green's policy is a prime example for the need to further clarify the law.

I introduced Senate Bill 303, legislation that would clarify existing law by mandating that no state agency or organization may offer, sponsor or endorse any health insurance policy that covers non-therapeutic abortions. BGSU's policy directly conflicts with the Ohio General Assembly's intent, to ensure that no en-

firming the state's position on

LEGISLATION WILL ENSURE

395, legislation that prohibited the use of state funds to pay for health care insurance benefits to cover non-therapeutic abortions. This simply means that no taxpayer dollars could be used to cover any abortion procedure other than those performed to save the life of the mother or when the pregnancy is a result of rape or incest. To further ensure that taxpayer dollars are not used to fund abortions, the General Assembly later passed House Bill 94, a measure that required any facility that receives state money to be physically separated from a facility providing abortion referrals or abortion services.

COMMUNITY MEMORIAL HOSPITAL CELEBRATES OCCUPATIONAL THERAPY MONTH: WHAT IS OCCUPA-TIONAL THERAPY?

Occupational Therapists work with patients to enhance the overall performance of individuals to regain or improve their highest level of functional independence.

Occupational Therapist, Stacy Kosha states, "Primary areas of focus are activities that help maintain personal independence (bathing, dressing, eating, transfers) and mobility, as well as, work and productive tasks such as those that provide meaning and support to the individual, family, and society (home management tasks, household maintenance, and work reconditioning and leisure pursuits (i.e. golfing, tennis)".

Diagnoses that are commonly treated by Occupational Therapists are:

Strokes, Parkinson's disease, Hip & knee replacements, Fractures, Generalized weakness due to diagnoses such as: Congestive Heart Failure, Pneumonia, Chronic Obstructive Pulmonary Disease (COPD), Back injuries, Fibromyalgia, Arthritis, Traumatic Brain Injury/Cognitive disorders such as Alzheimer's, Hand and arm injuries (i.e. DeQuevain's tendonitis, Tennis Elbow), and developmental disabilities such as Autism, Attention Deficit Disorder, Learning Disabilities and Sensory Integrative Disfunction.

The Occupational Therapists at Community Memorial Hospital are also trained in performing ergonomic evaluations and Functional Capacity Evaluations (FCE's) to meet the needs of local business and industry.

The Occupational Therapist at CMH works closely with other members of the rehab team (physical and speech therapy, pulmonary and cardiac rehab) and with your physician to assist the patient to returning to optimal daily function.

So How Long Will Your Digital Prints Last?

digital cameras have become a fact of everyday life

While digital photography has many benefits, consumers need to be aware of the risks facing their images. Because hard drives and digital media can be damaged and file formats can become obsolete, making photographic prints with the highest-quality inkjet printing technology is the best way to share and preserve memories.

But can an inkjet print last as long as traditional lab prints? With some basic understanding regarding print longevity, today's photos, printed on affordable home printers, can last 100 years or more—far longer than traditional color lab prints, which is important since nearly three out of four people want their photos to last forever, according to a recent PictureMate Family Memories Survey, conducted by Harris Interactive.

Today, inkjet prints can be made on a wide variety of papers with dye- or pigment-based inks. Although both can provide excellent quality, dye-based inks achieve lower levels of longevity on different kinds of paper while pigment-based inks offer greater resistance to light, ozone and water on a variety of papers

So with the goal of keeping those treasured photos for years to come, remember the following points:

Jim Hunt

There are four points to focus on so your photo memories won't

1. Ink & Paper Make A Big Difference

Major printer manufacturers design ink and paper to work as a system to deliver the highest possible print quality and, in some cases, the best possible print longevity. The Epson Stylus C88, for example, retailing for about \$79, uses Epson DuraBrite Ultra pigment inks and produces prints that can last more than 100 years when framed under glass.

Consumers looking to save money by purchasing ink cartridges and/or paper from third parties, including store brands and even traditional film manufacturers, should beware. Their prints may not have the same image quality or longevity as the printer manufacturer's system of ink and paper.

Buyers should also be skeptical of any one-size-fits-all, universal compatibility claims for nonbrand ink and paper.

2. Too Much Light

There is no greater danger for a photo than direct exposure to light.

Joe Hunt

photos printed by inkjet printers can fare much better than tradi-

It's important to understand a printer's capability to provide protection against fading that best meets your needs.

If you don't know how your printer stacks up, or are considering buying a new printer and want an independent comparative longevity rating, you can visit Wilhelm Imaging Research at www.wilhelm-research.com.

3. Even Photos Hate Air Pollution

Gaseous pollutants, especially ozone, can directly affect how long an inkjet print lasts. The best and simplest way to protect any photo from gaseous pollutincluding smoke and cooking fumes, is to keep displayed photos behind glass in a frame, or in photo albums, and choose a printer that uses a pigmentbased ink, which has greater resistance to ozone.

4. Keep 'Em Cool & Dry
Lastly, high temperature and humidity levels can negatively affect the longevity of photos. This goes for large prints displayed openly, as well as snapshots stored in shoeboxes in the back of a closet. Fortunately, home printers that use pigmentbased inks when used with the right papers offer great resistance to humidity and temperature extremes.

HEALTHY IDEAS

(NAPSA)—While there is not one "best" hormone therapy option for all women, the reality is that women are much more responsive to the types of hormones normally found in the body. These include bio-identical hormones such as estradiol (the primary estrogen produced by the ovary) and micronized progesterone. To learn more, visit www. MenopauseRx.com.

Don't jeopardize the health of your feet because you just found the sandals "you have to own." These sandals may be trendy but your feet may pay for this decision, say experts at the American Podiatric Medical Association. Fortunately, shoe brands such as Aravon offer superior comfort combined with style in extensive sizes and widths so you no longer have to suffer to look great. Nominate Someone Who Keeps Going

(NAPSA)—Not only will he soon be nominated for baseball's Hall of Fame, but former Baltimore Oriole Cal Ripken, Jr. is being honored for his determination, perseverance and his never-quit attitude

He played in 2,632 straight games, and now Ripken's name has become synonymous with strength, character, endurance and integrity. His philosophy of working hard, playing with passion and enjoying the game has made a tremendous impact on the sport and on fans everywhere.

That's why Ripken is the inau-gural inductee in the Energizer® Keep Going Hall of Fame. Ripken will join Energizer in a nationwide search for everyday people whose attributes and actions best exemplify qualities such as perseverance, determination and a never-

quit attitude.

Since the Energizer Bunny®
first appeared more than 16 years ago, its unique spirit and endless energy have invited compliments and comparisons.

Today, Ripken is using the platform that baseball has provided him to help expand the game he next phase of his life includes the construction of a one-of-a-kind baseball complex in his hometown of Aberdeen, Md. The Aberdeen Project currently consists of Ripken Stadium, a state-of-the-art, 6,000seat, minor league ballpark that is home to the hugely successful Class A Aberdeen IronBirds.

Adjacent to the minor league ballpark is the Ripken Youth Baseball Academy, which consists of several youth-sized fields that are mod-eled after famous big league ballparks Camden Yards in Baltimore; Memorial Stadium, which preceded Camden Yards; Wrigley Field in Chicago; and Fenway Park in Boston. Other amenities include batting cages and a synthetic training infield. Hundreds of teams and ballplayers from all over the country visit Aberdeen each year to partici-

pate in tournaments and camps

"I am honored to have been selected as the first inductee to the Keep Going Hall of Fame and help in the nationwide search for the next inductee," said Ripken. "We all know and are inspired by people with a can-do, never-quit spirit. Together with Energizer, I'm excited to help celebrate others throughout the U.S. who approach life this way."

If you know someone who continually goes above and beyond, perseveres through life's everyday challenges or who is "...like that Energizer Bunny...," now is your Energizer Bunny...," now is y opportunity to honor him or her.

The winner will receive a \$10,000 cash award and a \$5,000 donation to keep his or her charity of choice going. Nominations for the "People's Choice" inductee can be made at www.energizer.com/ halloffame by submitting an essay of 100 words or less stating why your candidate keeps going and deserves to be in the Keep Going Hall of Fame. Nominations will be accepted through April 12, 2006.

Guide To A Stress-Free Tax Season: How To Make Your 2006 Tax Returns Less Taxing

(NAPSA)—While the annual task of completing and filing tax returns is daunting for many Americans, there are some surefire ways and special offers to make the process less taxing.

File electronically. In 2005, more than half of the nation's 135 million taxpayers filed their returns electronically, up 11 percent from 2004. This increase is proof positive that Americans are seeing the benefits of e-filing. Not only is electronic filing faster and quicker than paper returns, it also provides confirmation that the return has been received and can help catch errors before they happen. Get refunds faster. E-filing

also helps individuals get refunds quickly and easily. Refunds can be automatically deposited into a checking or savings account via Direct Deposit in as few as seven business days. Use payment cards for tax

payments. For those who are more likely to be paying taxes than receiving a refund this year, there is a silver lining in the April clouds. Using a Visa payment card for tax payments can help individuals conveniently make secure and timely payments, and earn rewards based on your card. Paying taxes with payment cards can also help you manage cash flow by spreading out payments, and provides peace of mind that tax payments are made with proof of pay-

TurboTax® Online is offering a 15 percent discount off federal and state tax preparation fees at www.officialpayments.com/turbo taxVISA, for payments made with Visa cards on or prior to October 15, 2006.
Consumers can also reduce or

Mon - Fri 1-5 Sat 10-5; Sun 12-5 **EDWARD STRALEY FILES FOR PAULDING COUNTY COMMISSIONERS SEAT**

Edward Straley has filed his petition with the board of elections for Paulding County Commissioner. He is a Democratic candidate whose name will appear on the primary ballot on May 2.

Mr. Straley is a life long resident of Paulding County and married to Carol (Johnson) for 45 years. Carol has worked as a rural letter carrier for the Paulding Postal Service for the last 21 years.

They have raised three children: Dan (Jill), Paulding; Cindy (Jim) Stiverson, Marion, OH; and Lisa (Scott) Worden, Payne and have been blessed with six grandchil-

For several years he was employed at Zeller Corporation, Defiance and Standard Oil of Ohio. Ed graduated from Paulding High School, attended Ohio State University in Lima and also Northwest Technical College, Archbold, OH. He is a member of the Lutheran Church where he has served as treasurer. church council, and building committee.

In the past Ed was a director of Paulding Consumers & Supply, a member of the Paulding County Soil & Water Conservation board. He is a member of the Paulding Cemetery Board, Paulding County Hospital Foundation, Farm Bureau, Paulding VFW & Paulding Eagles and an associate member of the Paulding Township Trustees Association.

Edward Straley's priority is to "Listen & Serve" the needs of the county. He plans to explore more opportunities to bring in more revenue and new industry to the county.

Until the 1700s, ballerinas wore long, heavy skirts, tight corsets and heeled slippers-all of which limited their ability to jump and perform other energetic movements.

Our Youngest Heroes

(NAPSA)—Thousands of children across the U.S. have faced natural disasters and other crisesbut they've still found a way to help themselves and help others. A new program will honor a number of igh school students who were affected by catastrophe and made a positive impact on others.

A new program honors students who have faced and responded to a crisis

The Student and Youth Travel Association's Youth Foundation's (SYF) Silver Lining Program will give selected students the opportunity to meet other students who have gone through similar circumstances—and help them share, heal and develop friendships that could last a lifetime. Participants will attend leadership classes and team-building workshops and

have plenty of fun.

SYF is the philanthropic arm of the Student & Youth Travel Association. The program is open to high school students across North America and students can be nominated by friends, family, teachers and administrators.

For more information on how to apply or to learn more about the program, visit www.SYTA YouthFoundation.org.
