## SEPTEMBER IS PREPAREDNESS MONTH; PREPARE THE WHOLE FAMILY

Think about the unique needs of your family when making emergency plans.

National Preparedness Month is a great time to evaluate how ready you are for an emergency! Don't forget about the people who depend on you. Are there children, older adults, people with disabilities, special medical needs, or pets in your life? These groups are more vulnerable during a disaster, and your emergency plan should take their needs into consideration. Here are some suggestions for how you can be ready to help the people you care about during an emergency.

### Think About Who Depends on You

Children, older family members, and even pets that rely on you for everyday care will be looking to you during an emergency. Make sure you are prepared for the medical or physical needs of people you care for during an emergency. When building an emergency kit, include special medication, medical supplies, food and water for pets, and comfort items for children. A favorite toy or blanket can go a long way to help calm nerves during a disaster. Have a plan for how you would provide care if you were evacuated or had to shelter in place. Share your emergency plans with those you care for and make sure they are prepared and know what to do in an emergency.

Don't forget to include items for kids, older adults, pets, medical needs, or any other assistance your family may need when making your emergency plans.

### Make Plans Together

One of the best ways you can provide care for people around you is to talk to them about preparing for an emergency or disaster before one occurs. A simple conversation to get others

involved in emergency preparedness can be the best way to help. Talk to your neighbors about disasters in your area and how best to prepare and respond. Reach out to older relatives and talk to them about their plan for a disaster. Have a conversation with your kids about emergency preparedness and get them involved in your disaster plan in a way they can understand. At work, make sure that there is a disaster plan in place and that emergency plans are shared and easy to understand.

### Form a Support Network

Talk to neighbors or coworkers about forming support networks. A support network is a great way for people who are more vulnerable due to physical, medical, or other limitations to get extra assistance in an emergency. Learn how you can help people around you during an emergency and make sure people around you are aware of additional help you may need.

### Get Trained to Help!

Often, the people who provide the most immediate and important help during a disaster are not trained medical or emergency response professionals, but simply people who were closest to the disaster and pitched in to help. Take a first aid or disaster response training course and be ready in case that person is you! These courses, often no longer than a weekend, could make the difference in helping save someone's life after an emergency.

### You can do it! Be ready!

Remember that anybody and everybody can and should be involved in preparing for an emergency. A successful response starts with preparation.

Please contact Bill Edwards at 419-399-3921 at the Paulding County Health Department for additional information.

## FIRST FRIENDS CHURCH OFFERS FREE AUTO CLINIC

Fall is just around the corner and again it is time for the semi-annual Free Auto Clinic for Single Moms and Widows. This is the 5<sup>th</sup> year that First Friends Church has offered to assist area single moms and widows with their care maintenance needs. On Saturday, September 20<sup>th</sup>, local volunteers will bless up to 50 local single moms and widows with a free oil change and multi-point inspection for their vehicles. "In the fall, we help area single moms and widows prepare their vehicles for winter driving," shared Pastor Paul of First Friends Church. Not only do they offer a free oil change, but they also inspect the vehicles and make recommendations of areas on their vehicles that might need immediate attention and refer them to area car care specialists.

In this small way, First Friends Church saves local single moms and widows thousands of dollars each year on their car care needs. "This is part of First Friends, being a 'Church with Heart, Caring for our Communities' ministry," stated Pastor Paul. Pastor Paul is so proud of the servant's heart of the people of First Friends Church. Everyone works together as a team to make the free auto clinics possible each year. From the men and women that volunteer and help do the oil change on Free Auto Clinic day, to those who pray for the workers and single moms and widows, bake the cookies, fix lunch for the workers, pass out fliers, donate money to help pay for the supplies, and help with clean-up, it is a team effort. For not being a large church, but a growing church, they touch many lives. This is one of the many ministries of First Friends Church, a church that shows the love of Jesus in practical ways. First Friends is located at 210 South Franklin St. one block south of Main St., at the corner of E. Central and S. Franklin St. in Van Wert. They meet at 10:30 a.m. on Sunday mornings.

If you are a single mom or widow, who could use a free oil change to help stretch your limited car care budget or someone who would like to help by donating of your time or by helping with the cost of supplies, please contact Pastor Paul at 419-771-9378. One of Pastor Paul's favorite sayings is "people don't care how much you know, they want to know that you care". This truly is a labor of love.

Again, if you are a single mom or widow, or if you know of a single mom or widow, who could use a hand up, by a free oil change, please contact Pastor Paul by Thursday, the 18<sup>th</sup>. They are limited to the first 50 single moms and widows, who pre-register by calling Pastor Paul at 419-771-9378. "If you are looking for a church that believes in showing God's love by reaching out to those in need in our area, please check us out at our 10:30 a.m. Sunday morning worship celebration," shared Pastor Paul and his lovely wife Susie. Jesus said "when we show love to the least of these, we show our love for Him."

## SCRIPTURE OF THE WEEK

"So we have come to know and to believe the love that God has for us. God is love, and whoever abides in love abides in God, and God abides in him." *1 John 4:16*

## JUNIOR HISTORIANS MEET

Pictured here are Junior Historians (l-r) Kaden Clark with a WWII Service in Europe medal, Linsey LaFountain with a Purple Heart and Caleb LaFountain with WWII Dog Tags.

The John Paulding Historical Museum's Junior Historians met on Saturday, September 6 with three members and their parents present.

Their leader, Genevieve Noggle, led the discussion on the Museum's military showcase. They discussed the doughboy helmet, hard-tack, a knapsack, the Liberty Girl poster, a mess kit and the service flag. This was followed by questions and answers about other things in the case. They also looked at some of the military medals. During Show and Tell, Caleb LaFountain showed his great-grandfather's WWII dog tags and Linsey LaFountain showed her great-grandfather's purple heart. They each gave a short report on these.

## 10<sup>th</sup> ANNUAL WOODBURN CHRISTIAN CHILDREN'S HOME BENEFIT AUCTION

You're Invited! The 10<sup>th</sup> Annual Woodburn Christian Children's Home Benefit Auction will be held on October 18<sup>th</sup> at the Woodburn Community Center, 22651 Main Street, Woodburn, Indiana, to support the Woodburn Christian Children's Home. Dinner will begin serving at 4:00 p.m. The Silent Auction will start at 4:00 p.m. and the Live Auction will begin at 5:00 p.m.

The Woodburn Christian Children's Home is supported entirely by voluntary contribution. They receive no federal, state or county support. They are entirely dependent upon private contributors whose strong support enables this ministry to operate on a cash basis.

WCCH operates very efficiently. The cost of caring for a child is about half the average cost of similar child-care throughout the tri-state area. Children are evaluated for placement on a needs basis. Family participation is on a sliding scale. Over the years, numerous children have been accepted for placement even though their parents had little or no ability to pay.

Please visit [www.wcchonline.org/auction](http://www.wcchonline.org/auction) for a list of auction items (this list will be continually updated right up until the auction).

### Pre-auction Auction Item...

The Woodburn Christian Children's home currently has one "pre-auction" auction item: Two tickets to the Colts/Titans game on 9/28/14. These tickets are on the 40 yard line, 8 rows up behind the Colts bench (Defense). It has been said that from these seats you can hear the players talking on the bench! Here's a link to the tickets and how you may place a bid on them <http://www.wcchonline.org/colts-tickets.html>

### Some of the items to be auctioned include:

**Vacation/Travel** - one week stay at Condo/Siesta Key, Florida; one week stay at Condo/Panama City Beach, Florida; one week stay at Palace View Resort, Branson, Missouri; Weekend Stay at Glenlaurel in the Hocking Hills includes 6 course meal; 4- one day park hopper passes to Walt Disney World, Orlando, Florida

**Tires** - Set of four tires BF Goodrich (includes "Pamper your Car" package)

**Events** - Detroit Tigers' Baseball Game, four tickets; Cleveland Indians' Baseball Game, four tickets; two tickets to Indianapolis Colts game; two tickets to Ohio State football game; Golf and lunch w/IPFW Volleyball Coach, Arnie Ball

## FIRST FEDERAL BANK CELEBRATES OPENING OF SECOND OFFICE IN FORT WAYNE WITH RIBBON CUTTING CEREMONY

First Federal Bank hosted a ribbon cutting ceremony and reception to celebrate the opening of a second office in southwest Fort Wayne, Indiana on September 9, 2014. The 4,000-square-foot-facility, located at 9909 Illinois Road, brings First Federal Bank's total number of offices in northwest Ohio, southeast Michigan and northeast Indiana to 33. This office was designed with stand-alone desks instead of a traditional teller line to facilitate personalized, one-on-one banking experiences for every client. Also as part of the ribbon cutting ceremony, First Federal Bank made a check presentation to Community Harvest Food Bank of Northeast Indiana.

According to Phil Bundy, Fort Wayne Market Area Executive, the new office offers a full range of banking services for individual, small business and commercial clients, but with a unique approach to service. "This office is staffed with relationship bankers who will be able to do any type of transaction for you from opening a new account, completing a loan application to making a simple deposit," Bundy stated. "This facility also gives us an opportunity to build our commitment to Fort

Wayne. We are very pleased with our growth, and we look forward to presenting our 'Customer First' style of community banking to the residents in southwest Fort Wayne."

Lisa Stauffer has been appointed as Relationship Banking Manager of the new office, and Dan Fivecoate will serve as Mortgage and Consumer Lending Officer. The office also features staff dedicated to Treasury Management, Business Banking,

Wealth Management, and Insurance through First Federal's affiliate First Insurance Group. "We invite everyone to stop in during the month of September for grand opening specials and to see what our philosophy of 'Better together.' truly means," Stauffer said.

First Federal Bank has an additional Fort Wayne location at 1595 West Dupont Road. The First Federal Bank Illinois Road office number is (260) 432-0022.

## TRIBUTE CONCERT WITH IMPERSONATORS PERFORMING LEGENDARY MUSIC

On September 20, with doors open at 6:00 p.m. and a concert at 7:00 p.m., Shade 'N Shannon will be performing at The Rockford Belle located at 135 Market Street, Rockford, OH. The two dynamic impersonators, of the Fort Wayne, IN area plan to perform a concert featuring the legendary music of Johnny Cash, Patsy Cline, and others! The Public is invited to attend.

Shade Jonze is considered a versatile performer, songwriter, singer, musician and comic and has performed for many years in a variety of venues across the Midwest. He has opened for the likes of Country Grammy Award winner Travis Tritt, and is best known in northern Indiana as "the man who sings Johnny Cash." He loves street performances and has performed at the annual Fort Wayne Buskerfest for the past three years. "Thirty minutes, twenty songs and twenty costumes" is a crowd favorite. He is just as comfortable being silly on the street as being serious on the stage.

With a sound, style and

presence that is unique to Shannon Persinger, the entertainer has been invited to perform with Shade Jonze and contribute to the show featuring legendary musicians such as Johnny Cash as Patsy Cline. Interesting to note: she performs her own solo Patsy Cline's "Crazy" Live Radio and jazz show. A talented mimic she marches through the styles of many famous female vocalists. In addition to Cline, she adds Karen Carpenter, Diana Krall, and Amy Winehouse to name a few. She is a featured soloist for the renowned 36 piece Christian Chapel Orchestra in Fort Wayne, IN. She sings regularly with the seven person rock and country Posse group out of Marion, IN. She has been the sole female vocalist at the annual Christmas Tree Lighting on Broadway in Fort Wayne for the past three years.

Mark your calendar for September 20 at The Belle for a tribute to legendary musicians with performers Shade 'N Shannon! For concert information contact, Tom Rogers at 567-644-9993.

## BIBLE QUESTIONS

By: James Potter, Oakwood church of Christ

1. Luke 15:8-10 - Can a coin lose itself?
2. Luke 15:8-10 - A person who has a coin and misplaces it, is worth how much?
3. Luke 15:8-10 - This coin has an image on it probably of Caesar, whose image are we made in?
4. Luke 15:8-10 - This woman searched how for this coin?
5. Luke 15:8-10 - How should we search for lost souls?
6. Luke 15:8-10 - What is worthless until it is taught?

7. Luke 15:8-10 - What did this woman know about the coin?

8. Luke 15:8-10 - What is seen in the parables we have just studied?

9. Luke 15:8-10 - What will deaden our concern for the lost?

10. Luke 15:8-10 - What is easy to do to those who are concerned for the lost.

Comments or questions? Call James Potter at 419-393-4775 or e-mail me at jsp1941@yahoo.com. Jesus loves you and so does the Oakwood church of Christ.

Answers to questions:

1. No, it has been mishan-

dled or misplaced.; 2. Worthless; 3. Go; 4. Diligently; 5. Diligently; 6. A soul; 7. The value of it; 8. The value of one soul; 9. Self-righteousness; 10. Criticize.

Now some truth from the study Luke 15:1-10; verse 1 in this verse the tax collectors and sinners (this could be the irreligious Jews) are coming near to hear Jesus. Verse 2 tells us about the Pharisees and Scribes complaining about Jesus receiving sinners and eating with these people indicated acceptance and recognition. Luke 19:10 (NASB) tells us, "for the son of man has come to seek and to save the lost." Jesus telling us this means the doctrine of election is false for those who teach that only the elect will be saved. Jesus doctrine or teaching tells us all who desire and obey Christ's doctrine will be saved. In verse 3 tells them a parable he contrasted the love of God with the exclusiveness of the Pharisees.

As you continue to study through verses 8-10 this continues for we see there will be more joy in heaven over one sinner who repents than over the ninety-nine righteous who need no repentance.

Loved ones, God, Jesus, Holy Spirit and even the angels rejoice over a sinner who repents and turns his life over to God. The one church will also rejoice over one soul who repents and is saved. A happy church is one who is saving souls. "Ol Baldy" says bye for now, but continue to pray, read and study the Bible, especially the New Testament, for this is the covenant we are under serving Christ and this is truth, the New Testament. "Luv Ya".

## DOES ANYONE CARE?

Winning the Battle for a Generation by: Pastor Rick Jones

Has life got you down? Do you feel all alone and that no one cares about you? Sometimes life can bring you some difficult circumstances and you can become discouraged and you may think that you do not matter, that there is no one who cares for you. Please read on and be assured that you are loved, that there is always "Someone" who cares for you...

One of the few old-growth forests in northern Kentucky is the Lloyd Wildlife Area in Crittenden. No axe ever has disturbed the 20-acre plot and never will. It was set aside by Curtis G. Lloyd, an internationally known botanist. When he died, his ashes were scattered here, near an impressive tombstone. One side bears his name and says, "Erected by himself, for himself, in his own lifetime," and then there is a line from Shakespeare's A Midsummer Night's Dream: "What fools these mortals be." On the other side it reads, "How many days, months, years, nobody knows and nobody cares."

Of course, it is not true that nobody cares. Jesus cares. If He marks the sparrow's fall, then He knows and cares about the smallest detail of our lives. The very hairs of your head are numbered (Matthew 10:29-31). The old gospel song is right: "Oh yes, He cares. I know He cares."

Rick Jones previously served on the staff of Defiance Area Youth for Christ for 36 years, first as a ministry coordinator and later as Executive Director. Rick is currently a pastor of an area local church.

## FORT WAYNE STUDENTS TO HOST FIELDS OF FAITH EVENT

Students and adults from the Fort Wayne area will be joining thousands of other youth and adults on athletic fields all across the nation on Wednesday, September 24, 2014, at 6:30 p.m. to share their Christian faith with fellow students during the ninth annual national Fields of Faith event. This year's event is set to take place at Parkview Field, 1301 Ewing St., Fort Wayne, IN.

This rapidly-growing, interdenominational outreach event will be held at more than 450 locations throughout the nation on this same date.

While many Christian rallies are anchored to an entertainer or professional speaker that creates a spectator event, Fields of Faith is structured as a student-to-student ministry. Peers invite their own classmates and teammates to meet on their school's athletic field to hear fellow students share their testimonies, challenge them to read the Bible and to come to faith in Jesus Christ.

This will be the first Fields of Faith event for Fort Wayne, Indiana. However, last year, approximately 300 students and supporters attended at Antwerp Community Ball Field.

The national growth of Fields of Faith has been remarkable. Since the beginning of Fields of Faith in 2004, over a million people have joined in the movement. In 2013 alone, more than 170,000 students gathered on 463 fields to participate in the event.

It's not just those numbers that have FCA organizers excited about Fields of Faith. It's the real-life impact that these gatherings are having on young people. Last year's series of events saw 5,397 students make first-time faith commitments to follow Jesus Christ, 7,921 recommitted their life to Christ and 9,834 committed to reading the Bible daily.

"The impact of Fields of Faith has been incredible in just these past few years," said Les Steckel, FCA president and former veteran NFL coach. "It's all about young people in these communities coming together on their school's athletic field and challenging each other to go back to the fundamentals of reading God's Word and coming to faith in Jesus Christ."

The impetus for Fields of Faith began with Jeff Martin, an FCA staff person, who conceived the idea from an Old Testament reference in 2 Chronicles 34 after searching how to help today's generation of students face spiritual battles and temptations. In the scripture, King Josiah, an influential teenager very similar to Fields of Faith attendees today, gathered his people and challenged them to read the Bible. As a result, they changed their culture.

In 2004, the Josiah-influenced dream came true when 6,000 students gathered on school athletic fields throughout three states for the first Fields of Faith event. That was the beginning of what has become one of the most significant faith-related gathering of students in a single day.

"Fields of Faith challenges

this generation to be committed to reading the Bible and living a transformed life for Jesus Christ," said Martin. "It's students challenging students, peers challenging peers and that's the heart and soul of Fields of Faith."

All lady members of the LCMS churches in the zone are members of the LWML and are welcome to join us for the rally!

## AMAZING RACE COMING TO ANTWERP

You may have seen it on TV. Teams of two racing from place to place, solving clues, and completing challenges. Now this fun event is coming to Antwerp!

On October 4<sup>th</sup>, you could have the opportunity to race around Antwerp, solve clues, complete challenges, and have fun while you do it. This Amazing Race will take you to various sites in Antwerp where you will be challenged to complete tasks or solve riddles that will help you reach your final goal.

This event is another one to help the mission team from Antwerp UMC reach their goal of going to Jamaica to share with them the love of

Jesus Christ. To participate in the Amazing Race call The Agora at Waldo's Hill at 419-2589-1100 or the Antwerp United Methodist Church at 419-258-4901 for all the details and to register. Prizes for the winning team include a 26" liquid crystal TV valued at \$300 and a family photo shoot valued at \$250. Registration deadline is September 27.

## LEAF RAKING SERVICE PROVIDED BY ANTWERP UMC MISSION TEAM

The Antwerp UMC Jamaican Mission Trip team is offering their services to help clean up your yard for the winter. If you have leaves that need to be raked or general yard clean up to be done call Antwerp UMC at 419-258-4901. A member of the mission team will talk to you or call you back to discuss what you need done, set up a day and time and a team to come out and do the work. You will then be offered an opportunity to support the mission team and the work they will do in Jamaica.

## A RIDE WITH BENNY

By: Stan Jordan

Benny Wyckoff retired from the position of rural carrier of Route 1, Antwerp. I carried mail on that route from 1949 to 1981. Benny replaced me and carried from 1981 to 2014.

The other day Benny took me around the new part of the route. He showed me the new additions to the route and the new houses and streets.

The 1940 census listed Antwerp as 1,025. On an Ohio road map now we are listed as 1,719, an increase of about 700 people. Over the years I have wondered where all of these people lived, and I found out the other day while riding with Benny.

Then I rode up and down every street in town and counted the new units. I also kept count of houses that had been removed in one way or another. We counted all the streets and places we call 'new additions'. Of course, we might have missed a couple, but here is a ball park figure. For an example, on Erie Street or SR 49 there are over 20 new houses and about four that have been removed. All of this has been done since 1950.

All of us old timers call the Jump Addition on Park Avenue the 'new addition' because it was the first one.

Now, we have Mickleson's and Dutchman's Cove.

There are 64 units in the North Place Apartments.

Then we have that beautiful addition of Oley McMichael's. We have almost 100 units in Leinard's and Bragg's trailer courts.

I only counted the units inside the corporation. I figure since 1950, Antwerp has grown by 300 new units and decreased by 55 units for various reasons.

The east side of the Harman Road and the Jarrett Woods Addition are both outside the corporation limits.

All in all, in the last 65 years, Antwerp has progressed in many fields. See ya!

## The Volunteer Corner

The local news station was interviewing an 80-year-old lady because she had just gotten married for the fourth time.

He asked her to tell a little bit about each husband and what they did for a living. A smile came to her face as she began to answer, explaining that she first married a banker when she was in her 20's, then a circus ringmaster when in her 40's, a preacher when in her 60's and now (in her 80's) a funeral director.

The interviewer looked at her, quite astonished, and asked why she had married four men with such diverse careers.

She smiled and explained, "I married one for the money, two for the show, three to get ready, and four to go!"

See ya!

## GENERAL MEETING TO BE HELD AT JOHN PAULDING HISTORICAL SOCIETY MUSEUM

The John Paulding Historical Society will be holding their General Meeting on Tuesday, September 23, at 6:30 p.m. at the museum located across from the fairgrounds in Paulding.

Speaker for the General Meeting will be Jane Nice, author of *Married to Millie: The Humble Life of Herb Monroe*. Jane grew up on a farm in central Indiana and earned a degree from Purdue University. She taught high school English in northern Indiana before moving to Paulding in 1990.

Jane and her husband have raised three children on their farm a mile from Paulding. She is active at the First Presbyterian Church where she met Herb Monroe nearly 25 years ago and was impressed with his humility, sense of humor, and his care for his wife during her Alzheimer's disease. Jane interviewed Herb for ten years to compile this biography, painstakingly and nosily gathering details from a man who would rather talk about anything but himself.

"Much ado about nothing!" Herb would say about the attention the Herb Monroe Community Park and his biography have gotten. Then he would have felt sorry for us for having to suffer through all of this talk about him.

The meeting is open to the public and refreshments will be served afterwards.

## OHIO DEPARTMENTS OF AGING, HEALTH, RAMP UP EFFORTS TO PREVENT FALLS

September is Falls Prevention Awareness Month and Tuesday, September 23 is National Falls Prevention Awareness Day, with the theme: "Strong Today, Falls Free" Tomorrow." Also this month, the Ohio Departments of Aging and Health are marking one year of stepped-up efforts to prevent falls among older Ohioans. According to Department of Health statistics, falls are the leading cause of injury-related hospitalization and death among Ohioans age 65 and older.

"Falls are not a normal part of aging, and most falls can be prevented," said Bonnie K. Burman, director of the Department of Aging. "But it takes all parts of our

state - from individuals to state and community leaders, to businesses and medical professionals - in a coordinated, 360-degree approach, to help our elders continue to grow, thrive and contribute."

STEADY U Ohio, the state's newest falls prevention initiative, marks its first anniversary this month. Led by the Department of Aging and supported by the Department of Health and more than 20 other state government and business partners, STEADY U works to ensure that every county, every community and every Ohioan knows how they can prevent falls, one step at a time. A Matter of Balance, an evidence-based program that teaches older adults strategies for reducing their risk and their fear of falling, is a major component of the STEADY U initiative, and is now available in all 88 Ohio counties. Visit [www.steady.u.ohio.gov](http://www.steady.u.ohio.gov) for tips and resources, including an easy, online falls risk assessment.

"A once-independent older adult can have his or her entire life changed by a single fall," added Richard Hodges, director of the Ohio Department of Health. "Beyond the personal and family impact, fatal and nonfatal falls cost Ohio and its residents an estimated \$646 million each year in direct medical and work loss costs, or \$1.8 million each day. These are some of the reasons Ohio is investing additional resources and building new partnerships to implement evidence-based prevention initiatives."

Supported by the Ohio Department of Health, the Ohio Injury Prevention Partnership's Older Adults Falls Prevention Coalition identifies statewide priorities to help communities raise awareness, address areas of greatest need and implement proven interventions. More information about the coalition is available at [www.healthy.ohio.gov](http://www.healthy.ohio.gov).

Also as part of the STEADY U Ohio initiative, the Ohio Departments of Health and Aging are providing copies of the Centers for Disease Control and Prevention's STEADI (Stopping Elderly Accidents, Deaths & Injuries) Tool Kit to help health care providers reduce their patients' chances of falling and suffering serious injuries. The tool kit gives providers resources including basic information about falls, case studies, conversation starters and standardized gait and balance assessment tests. More information about the STEADI tool kit can be found at [www.healthy.ohio.gov/vipp/falls/STEADI.aspx](http://www.healthy.ohio.gov/vipp/falls/STEADI.aspx).

How you can prevent falls:

Decreased muscle mass, vision and hearing decline, medical conditions and joint pain are some of the age-related changes that can increase falls risks. However, minor changes to the three H's - home, health and habits - can offset these risk factors:

Home: Remove or secure throw rugs; improve lighting especially near stairs; install grab bars in the bathroom; rearrange the home to make frequently used items easier to reach.

Health: Ask your doctor about a falls risk assessment and talk about medicines you take and whether they increase your risk for falls; have your hearing and vision checked annually.

Habits: Stay active to build

muscle strength and improve balance; slow down and think through tasks; stay hydrated and eat a well-balanced diet that includes calcium-rich foods.

## Facts about falls and older Ohioans from the Ohio Department of Health

Falls are the leading cause of injury-related hospitalization and death among Ohioans aged 65 and older and are largely preventable.

An older Ohioan falls every two minutes on average, resulting in an injury every five minutes, six emergency department visits and one hospitalization each hour, and three deaths each day.

Older adults account for a disproportionate share of fall-related injuries. Approximately 15 percent of Ohio citizens are age 65 or older, yet this group accounts for more than 84 percent of fatal falls.

The number of fatal falls among these older Ohioans increased more than 165 percent from 2000 to 2012.

The total estimated cost of falls (medical costs, work loss) is \$646 million annually in Ohio, or \$1.8 million each day. Falling and the fear of falling can lead to debilitating consequences such as depression and hopelessness, loss of mobility and loss of functional independence.

The causes of falls vary with contributing factors including lack of strength in the lower extremities, the use of four or more medications, reduced vision, chronic health problems and unsafe home conditions.

The risk of hip fracture can be reduced by getting screened, and if needed, treated for osteoporosis and by getting adequate calcium and vitamin D from food and supplements.

## 14th ANNUAL FLAT ROCK CREEK FALL FESTIVAL TRUCK SHOW

The John Paulding Historical Society will be hosting the 14th Annual Flat Rock Creek Fall Festival Truck Show featuring antique and special interest

vehicles on Sunday, September 21st starting at 9:00 a.m. The show will be held on the museum grounds located across the street from the fairgrounds in Paulding. Last year there were 136 vehicles registered.

There's no admission charge or entry fee. The event will take place rain or shine. Lunch will be available. Bring your truck and enjoy this fun-filled day with the family! For more information contact Henry Kauser at 419-399-5462 or Mike Kauser at 419-399-4856.

## ENRICHMENT DAY PLANNED FOR NEW HEIGHTS EDUCATIONAL GROUP

Dear families, teachers/tutors, and volunteers,

Would you like to help create a safe place for youth of all ages to go before and/or after school for enrichment co/op classes in Defiance and Sherwood, Ohio? Participating families/volunteers choose times and classes to be taught.

Class suggestions for the year include culinary classes, reading time, and art. Other suggestions are welcomed. Now is your chance to come forward with suggestions, ideas, and to sign up.

Planning meeting will be held on Friday September 19, 2014, from 4:45-6:00 p.m. at 201 N Harrison Street in Sherwood, OH. The meeting is at this location to better plan the classes for Defiance and Sherwood. All of the supplies are at this location. Defiance classes will be held at the Zion Lutheran Church. These classes are not religious based, although religious-based classes can be included if families are interested. Please come and tour the new satellite office/curriculum library.

Please RSVP ASAP at [NewHeightsEducation@yahoo.com](mailto:NewHeightsEducation@yahoo.com) or call 419-786-0247. Website is [www.NewHeightsEducation.org](http://www.NewHeightsEducation.org).

# BULLDOGS FALL TO CHARGERS

Sophomore Nishawn Jones carried the ball 30 times for 150 yards and 1 TD on Friday against Carroll. Photo by Beth Stauffer

By: Beth Stauffer

The New Haven Bulldogs Varsity team fell to the Carroll Chargers in a devastating overtime loss Friday, September 12th on the home field.

Things started on a high note for the Bulldogs as they won the coin toss, but things quickly appeared to turn bleak as Carroll's Blake Schumaker ran the ball back on the opening reception for a 98 yard touchdown. Fortunately for New Haven, the ball was called back for a hold, deeming the touchdown null and void.

Bolstered by this turn of luck, the New Haven D manages to ring the Carroll QB's number twice with back-to-back sacks after Carroll made a short run on 2nd down. This led to a Carroll punt, which ultimately led to a fumble by New Haven, with Carroll recovering the ball. Carroll's Cory McCray makes 1 yard TD to put the Chargers on the scoreboard, the extra point attempt is good with 10 minutes re-

maining in the first quarter.

Later in the quarter, with 53 seconds remaining, New Haven QB Vance Shearer tosses the ball to Isaiah Moore for a 19 yard gain, which is followed immediately by a fumble that is recovered by Carroll. Carroll attempts a 35 yard field goal, which goes wide left and is declared no good. This is a big stop for the New Haven D with 11 minutes remaining in the 2nd quarter.

Next, New Haven's workhorse, Nishawn Jones, gets his hands on the ball and takes it for a 50 yard ride. A flag is thrown on the play against Carroll for a personal foul, which advances New Haven to the Charger's 15 yard line. Nishawn Jones takes the ball for another yard into the end zone for a 1 yard TD; TJ Moeller's kick for an extra point is good, which ties the game up at 7-7.

By midway through the 2nd quarter, Nishawn Jones had already racked up 13 carries for 50 yards and a TD. Coming into Friday

night, Nishawn Jones was clearly New Haven's offensive weapon of choice, with Jones logging 73 carries, 467 yards and 7 TD's going into Week 4 action against Carroll.

With 3:33 remaining in the 2nd, Carroll misses another field goal attempt, New Haven can't capitalize on their next drive and is forced to punt. Carroll starts their final drive of the half at their own 40 yard line. With 02 seconds remaining in the 1st half, Carroll's Eric Lauer connects with a 28 yard field goal attempt to pull the chargers ahead 10-7.

At the beginning of the half, the punt is blocked and recovered by Carroll's Luke Brunner. New Haven's D holds Carroll at the 5 yard line from scoring; a field goal attempt goes wide right and doesn't connect for Carroll with 9:47 seconds remaining in the 3rd.

The Bulldogs begin their next drive, but a pass by New Haven's Shearer is intercepted by Charger Linebacker Brunner. New Haven's defense holds the Charger's back, but unfortunately at the beginning of the 4th quarter Nishawn Jones is stripped of the ball as he runs to the outside and the fumble is recovered by Carroll's Eric Dunten, who takes the ball for a 90 yard touchdown run. The extra point attempt is no good.

Carroll 16, New Haven 7. Next up, New Haven tries

to mix things up a bit and run the old hook & ladder play—Keshawn Moore tosses to Adam Hoffer for a 62 yard New Haven touchdown. The extra point attempt by Moeller is no good with 8:30 remaining in the 4th.

Building on the momentum of the previous play, New Haven's Mikeal Griggs manages to snap his second interception of the night when he picks off a pass by Carroll's Cody Dinan. New Haven takes over possession of the ball at the Carroll 43 yard line with just over six minutes remaining.

Later on in the game, with just over a minute remaining, New Haven's TJ Moeller kicks a field goal to tie the game up, 16-16. New Haven's defense manages to keep Carroll out of the end zone to send the game into OT after a 50+ yard field goal attempt by the Chargers is no good.

Moeller kicks a field goal in the Bulldog's attempt at scoring during OT, bringing the score to 19-16. Carroll responds with an Aiden Smith pass to Connor Gemlick for a 9 yard touchdown. Carroll wins 22-19 and in the battle of 3-0's, remain undefeated.

Next week, New Haven will travel to Norwell to battle the Knights who have a record of 2-2 and are fresh off a win in Week 4 action against Bellmont.

parents. The Panthers were competing in the second ever game against Antwerp and this time at their home turf.

It started off with Paulding receiving the kickoff from the Archers. Within 10 seconds, the Panthers posted their first touchdown by Preston Ingol. The game heavily went in Paulding's favor, who quickly racked up 19 points before Antwerp's Nick Barnhouse scored their first for the night in the second quarter.

At half time, the score was 26-7 with the Paulding fans pretty happy. Before the bands played, the race between ketchup, mustard, hotdog, and bacon finished with bacon taking the lead. Antwerp started with their band and Paulding following. Both performed well for the listeners.

The third quarter started similar to the first quarter except it was Antwerp's Justice Clark driving the reception ball to the end zone. He was tackled by Paulding's Darion Rowe at the one yard line. Antwerp followed up with a touchdown by Clark and this is the only quarter where the Archers outscored the home team, due earning 2 points after the touchdown.

In the fourth quarter, Paulding added two more goals to it's final score, putting it over Antwerp for a final score of 45-15.

Paulding's touchdowns were scored by Corbin Edwards, Branson Minck, Preston Ingol, James Mourey, Cameron Doster, and Tyler Nichols.

## BASKETBALL EVENTS RISE HIGH AT MAC GYM

Fall basketball has joined volleyball and jumped into high gear at the MAC Gym. This year 138 boys and girls basketball players from school districts and home school teams all around northwest Ohio and northeast Indiana are participating. Players this year travel from Allen, Dekalb, and Adams Counties in Indiana and Fulton, Williams, Henry, Defiance, and Paulding Counties in Ohio. Individual players sign up to play and teams are developed from those individuals.

For the first time, there are enough girls players to have a 3<sup>rd</sup> and 4<sup>th</sup> grade division of

teams. In the past these girls played with the older 5<sup>th</sup> and 6<sup>th</sup> grade group or just had enough girls to play 3 on 3 games. The other girls division this year is 7-12 grade girls. On the boys side there are 3/4 grade, 5/6 grade, 7/8 grade and 9-12 grade divisions. Junior high and high school games are played all afternoon on Sunday with lower division boys played on Monday and lower division girls Tuesday evenings.

This season also marks the fourth year of fall basketball at the MAC Gym. In October 2011 the inaugural season opened up with 54 total players signing up in three youth divisions. At that time, the then named Manor House Gym had no heat, no running water, no working restrooms, few lights working and a very rough and dirty gym floor. Three years of events in every season have helped not only correct all of these obstacles but also helped fund new problems that have popped up including new bleachers and working floor and ceiling fans.

Plans are developing for other fall basketball events including a 3 on 3 tournament on October 19, a pre-season boys tournament on November 15, a pre-season girls tournament on November 16, and the 2<sup>nd</sup> annual Black Friday boys and girls tournament on November 28. All upcoming events for fall and winter can be found on the gym website: [www.macgymohio.com](http://www.macgymohio.com)

## UNITED WAY OF PAULDING COUNTY A BIG ASSET FOR WHO?

United Way of Paulding County is a unique organization that holds much help for those in need. Who are "those in need?" Someone who has lost their job? Someone who has a major illness in their family? A person who's house has burned down? Yes, definitely, all of these people. Could a bad thing happen to anyone you know? Could it happen to anyone in your family?

How could United Way help? With your support Paulding County United Way cooperates and financially supports over a dozen major community support organizations. Your small donation multiplies and has the potential to bring in hundreds of thousands of dollars to Paulding County. United Way money collected in Paulding County stays in Paulding County.

Help those in need to tap into the State and Federal assistance support agencies that UW of PC works with. For more information, please call 419-399-8240, and talk with Sonya Herber.

## NSCC'S PRACTICAL NURSING PROGRAM RANKED SIXTH IN STATE

PracticalNursing.org, a website designed to help people who want to become nurses, recently ranked Northwest State Community College's practical nursing program sixth in the state. Rankings are based on the five-year average pass rate for the National Council Licensure Exam for Practical Nurses, which is required for being licensed as a practical nurse. Northwest State's average pass rate is 97.47 percent.

"We're very proud of our practical nursing program and the faculty who have helped make it so successful," said Lori Bird, dean of the Nursing Division at Northwest State.

Employers have taken note as well. Northwest State's most recent graduate survey indicates that 96 percent of its practical nursing graduates are employed.

"Our goal is to provide

training that leads to career opportunities, which is why we work closely with local healthcare facilities," said Bird. "Our curriculum aligns with what employers need, and that helps provide an edge for our graduates when they are looking for employment."

Other local institutions' rankings include Owens Community College, seven; the Professional Skills Institute, eighteen; and Rhodes State College, twenty-eight.

The practical nursing program is available at Northwest State's main campus in Archbold and the NSCC satellite site in Van Wert. For more information on practical nursing, or any program offered at NSCC, visit NorthwestState.edu or call 419.267.5511.

## MEDICATION AND ITS OUTRAGEOUS COSTS EX- PLAINED

**The Nurturing Well by: Jill Starbuck**

Nearly everybody faces the cost obstacle when it comes to medication. Prescription medication is often exorbitantly priced, especially brand name drugs. Overall prescription drug spending rose 3.2% to nearly \$330 billion in 2013. As spending continues to increase, so does the number of Americans who cannot afford their medications at approximately one in five.

Much of the cost of new drugs stems from a long and arduous clinical research process. Often, pharmaceutical companies spend many years, countless man-hours, and an enormous amount of money on drug trials—only to have a drug fail somewhere along the process. In fact, less than 1 in every 10 drug succeeds. Overall, average drug development can cost a company upwards of \$4 billion. The amount of time spent in the development process also takes away from potential earnings a drug could make in the market. In fact, the average lifetime of a drug on the market is only approximately 11 years, if the company is lucky enough to get its drug approved.

During the development process, a company must file for a patent in order to protect the drug. Patents are expensive. One patent can cost between \$10,000 and \$50,000, and as much as \$250,000. Defending patents is even more expensive. A typical patent lawsuit in the United States costs \$3 million or more. Although expensive, patents provide critical value to pharmaceutical companies by keeping competitors at bay, providing rights in the event of willful infringement, and allowing for higher market prices. In fact, the most valuable patent in history turned out to be for the pharmaceutical Lipitor, a cholesterol-lowering drug.

After many years, numerous resources, and billions of

dollars, a drug that succeeds in clinical trials is ready to go to market. However, in order to introduce the drug, pharmaceutical companies must advertise. Pharmaceutical companies spend tens of billions of dollars annually on promotional expenditures. Besides expenses, FDA labeling limitations complicate a drug's introduction to market. Therefore, companies must consider the best way to market their products. FDA label guidelines restrict the value products could create if companies were allowed to market products for a variety of indications.

As shown, the high risk and costs pharmaceutical companies have to expend to get a drug to market are stupendous. Even more sobering is that only about 3 out of 10 drugs that reach the market ever earn back money that exceeds or meets research and development efforts. For these reasons, pharmaceutical companies charge high prices to make up for lost time, resources, and money. If consumers do not pay these high prices, the incentives for pharmaceutical companies to continue researching new solutions to life-threatening problems may cease. Although this explanation does not ease the cost burden on consumers, perhaps understanding the reasons behind the costs will provide consumers more peace of mind.

## 463 VEHICLES PASS THROUGH OVI CHECKPOINT

The Ohio State Highway Patrol conducted an OVI Checkpoint Friday night from 9:30 p.m. until 12:30 a.m. The checkpoint was held on Clinton Street at Arabella in Defiance.

463 vehicles passed through the checkpoint with two of the vehicles being diverted to a secondary area. Of those, one person was arrested for OVI. Two impaired drivers were also arrested by saturation patrol units who were working in the areas surrounding the checkpoint. One of those arrested was operating a commercial tractor-trailer on US 24 and tested more than twice the legal limit.

The OVI checkpoint and saturation patrols were funded by fines from impaired drivers and other federal funding. The goal was to make motorists more aware of the impaired driver problem in Ohio, help bring about a reduction in the number of alcohol and drug related crashes, and to deter and intercept impaired drivers.

Lt. Charles Gullett, Defiance Post Commander, said "Even with the short delays, officers working the event received a tremendous amount of public support during the checkpoint and wanted to recognize the motoring public for helping to make our roadways safer."

Please remember, if you plan to consume alcohol, designate a driver or make other travel arrangements before you drink. Don't let another life be lost for the senseless and selfish act of getting behind the wheel impaired.

## JANES WINS POINTS CHAMPIONSHIP AT ANGOLA MOTOR SPEEDWAY

**Brian Janes wins Points Championship at Angola Motor Speedway.**

**By: Beth Stauffer**

Brian Janes, a lifelong New Haven resident, won the Points Championship at the Angola Motorsport Speedway on Saturday, August 30, 2014.

This is the 2<sup>nd</sup> year in a row Brian has won the Points Championship. In 2013, he won his class at the now-defunct Baer Field Speedway. Mid-season, Baer Field closed up shop and left Brian and many other racers without a racetrack to call home until they headed north to Angola.

The turmoil involved in racing is nothing new to Janes. The 31 year old grew up in a family where racing has been handed down from one

generation to the next. His maternal grandfather, former New Haven Chief of Police Dick Patty, raced at the South Anthony Speedway during the 1960's and 1970's. When Patty stepped away from racing, Brian's father, Everett Janes, stepped in to carry on the family tradition, racing for 23 years.

Brian and his older brother Matt now keep the racing dreams alive for the next generation of Janes men, including Brian's four year old son Aiden, during the summer racing season.

With humbleness, Janes says very directly that it isn't about being the fastest car out there, or having the most

money wrapped up in your car. "For me, it's about going out there and having a good time, because you can't make money at this sport. It's not gonna happen. But for me, being in the class I'm in, with having kids and a family, while money is tight and the economy is down, it's nice to be able to get away and have a little fun without breaking the break."

Janes attributes his stellar success to the time he put into his car over the winter in the garage. "My homework has paid off in the garage over the winter," said Janes. "Everything I've done in the garage has paid off, and it shows on the track."

In addition to his sponsors, Summit City Roofing, Curl Up 'N Dye Hair Design, Pampered Coach Truck Center, Twin Bros Auto Glass, and K&T Guns, Janes also credits his mother and stepfather, Teresa and Larry Zent, his father Everett Janes, his wife and children Christina, Aiden and Zoey Janes, his brother Matt Janes, and friends Tyler Clark and TJ Fisher with his success.

## CONGRESSMAN LATTA RECOGNIZES 13<sup>th</sup> ANNIVERSARY OF SEPTEMBER 11

Congressman Bob Latta (R-OH) released the following statement in recognition of the 13<sup>th</sup> Anniversary of the September 11, 2001, terrorist attacks:

"On this solemn day, we continue to offer prayers and comfort to the families and loved ones of the nearly 3,000 innocent Americans who were tragically killed on September 11, 2001," said Latta. "While this is a somber anniversary in our country's history, it is also a reminder of the strength of our Nation – both on that fateful day and in the 13 years since. To all of our first responders, recovery workers, public safety officers, and members of our law enforcement and military who heroically answered the call and continue to protect us today. May we always remain vigilant and steadfast in our commitment to the liberties and freedoms on which this country stands."

## H.B. 597: A DUBIOUS PROCESS TO ENACT DUBIOUS POLICY

**By: Gerald Stebelton, Ohio House of Representatives Chair (R, Lancaster) and Peggy Lehner, Ohio Senate Education Committee Chair (R, Kettering)**

Autumn is drawing near and Ohio's 1.8 million children are going back to school. This is an exciting time for students as they make new friends, meet new teachers, and dive into their math, social studies, science, English, and arts classes. This school year is also exciting for a different reason: classroom teachers across the state will use Ohio's New Learning Standards, which include the Common Core State Standards in mathematics and English language arts, as they develop lessons and classroom materials. While this school year marks the first for full statewide implementation, many Ohio schools have been using the new standards for the last four years—since the State Board of Education

adopted them in 2010.

Ohio's New Learning Standards identify what students should know and be able to do at each grade level. They seek to ensure that every Ohio high school graduate is prepared for success in college or work. Over the last four years, Ohio's public and non-public schools and educators have been working on their own accord to implement these standards. For instance, principals have increased teacher training. Local school boards and educators have selected new textbooks and instructional materials. Schools have expanded technology capacity. Overall, Ohio's schools have invested significant time and resources to prepare for this important work.

These standards hold the promise of helping students reach higher levels of achievement. But that bright future is now being threatened. A few weeks ago, several members of the Ohio House of Representatives introduced H.B. 597—a measure that seeks to repeal Ohio's New Learning Standards, including the Common Core State Standards in mathematics and English language arts, and replace them with a different set of standards unfamiliar to Ohio's schools, educators, parents and students. This transition would require schools to spend even more money and send educators scrambling to find appropriate training, curriculum, textbooks and instructional materials. Interestingly, hearings on H.B. 597 are being held in the Ohio House Rules and Reference Committee, not the Education Committee, which failed to support a similar bill introduced earlier this year.

As chairpersons of the House and Senate Education Committees, we have jointly led legislative efforts to make sure Ohio adopts and implements the best learning standards for our students. Continuing work begun in 2001, the General Assembly, in 2009, directed the State Board of Education to revise and adopt new academic standards. It did so in 2010, only after conducting significant due diligence, holding public review meetings across the state, and presenting the standards to the Ohio House and Senate Education Committees for consideration as required by statute.

Since 2010, we have been taking steps to make sure the standards are right for Ohio. In June of this year, we worked closely with key stakeholders to update high school graduation requirements, identify appropriate end-of-course tests that align to the learning standards, enact stringent guidelines that protect student data, and ensure a transparent process for reviewing the standards and tests. We also made it clear that local school districts remain in complete control of designing and adopting their own curriculum, textbooks and instructional materials. Finally, we tasked the state superintendent to make recommendations on how Ohio can reduce student testing as the standards are fully implemented. These carefully negotiated enhancements were enacted in Ohio's Mid-biennial Review Budget, H.B. 487, which Governor Kasich signed in June. H.B. 597 would not only wipe out

## 9/11 DAY OF SERVICE FOR CENTRAL LUTHERAN STUDENTS

Eighth grade students at Central Lutheran School participated in the 9/11 Day of Service by volunteering at Community Harvest Food Bank. Community Harvest Food Bank, located on Fort Wayne's Southside, is the largest food distribution center in Northern Indiana. It was established over thirty years ago and continues to serve over 20,000 individuals

each week. The eighth graders donated their time at CHFB and put their Christian values in action, spending their day helping those less fortunate. In just over two hours, CLS students stocked over 7000 pounds of food for the Community Cupboard and packaged over 500 pounds of food for senior homebound distribution.

this good work, but it would destroy years of work by dedicated educators and legislators.

H.B. 597 is bad for Ohio's students and schools. Last week, nearly 130 witnesses—including parents, superin-

tendents, teachers, curriculum specialists, local school board members, clergy, business leaders and advocacy organizations—went on record before the House Rules and Reference Committee to oppose the bill.
